

HIGH SCHOOLS EDUCATION DISPLAYS

MCDONALDS IN MACARTHUR HIGH SCHOOLS EDUCATION DISPLAYS

SHOWCASING AGRICULTURE GATE TO PLATE - FIELD TO FIBRE,
ENTERTAIN, EDUCATE & EXCITE!

Local High Schools are invited to participate in the McDonalds In Macarthur Schools Education display tent. The 2025 Schools Display Tent will focus on agricultural production processes. This will entail schools completing a registration form found here in the School Guide or downloaded from the website and selecting a theme around which they would like to create their displays. This concept aims to achieve the following objectives:

- Educate the increasing population of the Macarthur area about local agricultural connections
- Education of the community on 'where does our food come from?'
- Highlighting the importance of farmers
- Showcasing local schools and providing an opportunity to communicate with the community
- Provide an educational 'trail' for show visitors

HOW TO PARTICIPATE

Schools need to complete a registration form and select a 'theme' for their display. Schools are encouraged to nominate 3 themes, numbered in priority, 1-3, as themes will not be duplicated. Early registration will help ensure your desired theme is obtained – email completed entry form to office@camdenshow.com by Friday 28th March 2025

WHAT WILL BE EXPECTED OF SCHOOLS?

Schools will be required to create a display that showcases their school and displays the "paddock to plate" or "field to fibre" process for their chosen commodities. The Schools Display will form an integral part of the Camden Show Education area. Each school will be allocated a designated area. The size of the display area will be confirmed once registrations are received.
